"Space Ace" is the first in the Time Trouble-shooter series and introduces for the first time on the computer screen a hero of the "New Age" - LEE ENFIELD.

Lee's background is varied and exciting, always there when he's needed, ready to help a lending hand to a close friend or underdog, whatever the call, whatever the time zone. For Lee defies our understanding of travel, being able to jump the mightiest barrier of all, the barrier of time itself.

He now finds himself in the 22nd Century in an attempt to rescue his friend Bill, who is being held captive by his old adversary the evil Yellow Shadow. He knows his fight will be a long one as he has to do battle with with robot soldiers, galactic monsters, snipers, and abstract apparitions, and even after he smashes through these obstacles he has to destroy the magnetic meteor globe which throws his laser rifles sights askew, before he can proceed from one level to the next.

Lee takes his chances, he has to. After all he didn't get his pan-galactic Trouble Shooter badge for nothing - will you be able to!
Principal of the game

You have to get rid of all of Yellow Shadow's forces that he sends against

you. You can see the sights of your laser rifle on the screen. It is very sophisticated as it shows you where the enemy is. Also, it gives off a ringing signal that becomes more high pitched when the enemy is ready to shoot at you.
